ADMINISTRATION REPORT, 1889-90.

No. 515 OF 1890.

From

H. O. QUIN, ESQUIRE,

Acting Tálukdári Settlement Officer;

To

H. E. M. JAMES, ESQUIRE,

Commissioner, N. D.

Ahmedabad, 1st August 1890.

SIR,

I have the honour to submit the following report on the administration of the Tálukdári Settlement Department for the year 1889-90.

2. Mr. Younghusband took charge of this office from Mr. Pestanji Jahángir on 1st August 1889 and retained it until the 27th June 1890, when he handed it over to me. From 26th March to 30th May Mr. Younghusband was Acting Collector of Ahmedabad in addition to his duties as Tálukdári Settlement Officer. During the greater part of January he was occupied on the Committee appointed to enquire into disputes as to the use of water between British and Lakhtar villages. These special duties to some extent interfered with his year's work; in particular they prevented his making a tour in the Broach District as he had intended.

3. The following table shows, at a glance, the total number and revenue of estates of all descriptions under management, and of the Tálukdári villages in Ahmedabad under revenue charge; in the year under report:—

	Number of Estates.	Aggregate revenue for collection, 1889-90.	Amount realized by sale under Decrees.
		Rs.	Rs.
Ahmedabad Tálukdárs under Act VI of 1862—Appendix I.	38	77,879	...
Ahmedabad Tálukdárs removed from Act VI of 1862, but continued under management—Appendix IA ...	8		
Kaira Thákors under Act XXI of 1881—Appendix II...	50	90,512	...
Broach Thákors under Act XXI of 1881—Appendix III.	7	59,327	...
Minors' Estates under Act XX of 1864—Appendix V...	31	56,536	...
Miscellaneous Estates managed by agreement of owners—Appendix VI	8	27,142	...
Estates managed under attachment for default, &c., Section 144, Revenue Code—Appendix VIII ...	11	98,611	...
Estates—			
(*a*) Managed under Section 320 of the Civil Procedure Code—Appendix IX, Part I	136	48,631	...
(*b*) Under process of sale—Appendix IX, Part II ...	61	.....	...
Estates managed under Section 504 of Civil Procedure Code—Appendix X	6	7,389	...
Total ...	356	4,66,027	...
Tálukdári villages under revenue charge	356	3,71,508	...

4. The different classes of estates shown in the table above will now be noticed separately.

ENCUMBERED ESTATES IN AHMEDABAD.—ACT VI OF 1862.

5. The number of estates under Act VI of 1862 at the beginning of the year was 37. Two new estates, those of Dabhsar in Viramgám and Khambha in Gogha, were brought under the operation of the Act, and one removed from it during the year under report, thus making a net total of 38. These estates are shown in Appendix I.

6. Five estates were newly brought under the Act during the last year and 2 during the year under report. Against all these 7 estates creditors have filed their claims in this office under Sections 8 and 9 of the Act during the year as follows :—

	Name of Estate.	No. of Claims filed.	Amount of Claims.
			Rs.
1	Aniáli Kasbáti and Bubávav	134	63,234
2	Jhánjharka	20	52,086
3	Sinaj, Kánpura	261	66,002
4	Rudátal, &c.	234	51,889
5	Jethipura	50	9,683
6	Dabhsar	266	40,210
7	Khambha	86	24,766
	Total ...	1,051	3,27,870

7. With the exception of 32 claims in Aniáli, 2 in Jhánjharka and 1 in Sinaj, all the above claims have been enquired into and awards made.

8. Claims against the estates of Rudátal and Dabhsar have all been settled, but their settlement schemes have not yet been prepared for submission to Government.

9. Reports Nos. 402 and 428, dated respectively 20th and 26th June, upon the claims against the estates of Khambha and Jethipura have been submitted to you. The following are the results of the settlement of the claims against these two estates :—

Jethipura settlement has just been sanctioned—Resolution No. 4915 of 16th July 1890.

Estate.	Number of Claims.	Amount claimed.	Amount awarded.
		Rs.	Rs.
Khambha	86	24,766	9,505
Jethipura	50	9,683	7,149

10. It will be seen that a very considerable reduction has been made in the amount of the claims against the estate of Khambha. This is largely due to the fact that a number of false claims was preferred by certain creditors, all of which were rejected. A full account of these has been given in this office No. 402 of 20th June 1890, and there is no need to recapitulate the circumstances now. It is sufficient to say that the poor Tálukdárs of the estate have been rescued from the grasp of their creditors by the application of the Settlement Act.

11. In the case of the claims against the estate of Jethipura, there is no large reduction in their amount owing to the transactions on which they are based being of a recent date. The whole estate was mortgaged to a wealthy banker whose claim, instead of being reduced, had been allowed to increase every year, and the estate would have been lost for ever if the Act had not been applied.

12. The one estate removed from under the operations of the Act is that of Bávásáheb Sardármahomed of Návda and Pánvi. It was placed under attachment under Act VI of 1862 in the year 1876. The debts settled against it amounted to Rs. 95,253. All these have been paid off and the estate was restored to its owner free of encumbrance at the beginning of the year under report. It should be noticed that the greater part of these debts was paid off by the sale of the interests of Bávásáheb in the village of Návda under Government Resolution No. 5754 of 3rd August 1883.

13. The number of estates which have been removed from under the operation of the Act, but are still under management on account of the debt due to Government, is the same as last year, *viz.*, 8, as shown in Appendix 1A.

14. Of the estates at present under management as per Appendices I and IA:—

23 are directly managed by this office.

19 are managed by the Tálukdárs under the supervision of this office.

4 are managed by creditors under special arrangements.

15. The advance from the Government Treasury of Rs. 4,900, sanctioned in Government Resolution No. 5141 of 18th July 1889, has been taken and has been paid to the creditors of the 5 estates of Khokharnesh.

16. The financial position of all the estates is shown in Appendices I and IA. An abstract of these statements is contained in Appendix IV, from which it will be seen that Rs. 13,966 were paid to private creditors and Rs. 16,783 to Government; and that a total sum of Rs. 1,46,907 remains to be paid, of which Rs. 47,120 are due to private creditors and Rs. 99,787 to Government.

17. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows:—

	1888-89.	1889-90.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	1,75,376	1,67,461
Added during the year	13,736	.....
	1,89,112	1,67,461
Paid during the year—		
To reduction of debt	21,651	20,554
To interest on loans	7,721	5,295
	29,372	25,849
Balance ...	1,67,461	1,46,907

18. The average payment for the year under report is $15\frac{1}{3}$ per cent. and the reduction of debt is $12\frac{1}{4}$ per cent. The payment this year is less than that made last year, owing to one estate having been removed from management and smaller amounts having been received from the rice-producing estates.

19. There were 18 estates which stood indebted to Government at the end of the last year. Five estates of Khokharnesh have received advances for payment to their creditors during the year under report. The number of such estates has therefore risen to 23.

20. Eight of these, as stated in paragraph 13, are no longer under the operation of the Act, because the period of twenty years' management has already expired. But in all these cases mortgage bonds have been taken from the holders of the estates for the satisfaction of the debt still due to Government. The remaining 15 continue to be managed under the Act.

21. The condition of the estate of Makhiáv continues to be satisfactory. A fair payment has this year been made towards the liquidation of the debt, but the sum was not so large as was expected owing to the failure of the rice crop for want of rain. The Collector has applied to be made guardian of the person of the younger brother of the minor Thákor.

22. The estate of Khoda remains in the same bad condition as before. The rice crop failed altogether and only a small sum was paid towards the liquidation of the debt.

23. The estate of A'nandpura in Viramgám, though no longer under the operation of the Act, is still under management for the debt due to Government. Owing to the failure of the crops only a small sum was paid towards the reduction of the debt this year, and it could not be removed from management as was expected last year.

24. The estates of Gánol and Dumáli in Dholka also are released from the operation of the Act, but still continue under management for the liquidation of the debt due to Government.

25. Owing to the failure of the rice crop the Tálukdárs of Dumáli were not able to pay the instalments fixed for the liquidation of debt.

26. Of the encumbered estates in Dhandhuka those of Samadiála, Návda, Bhoka Oghad and Nája Ebhal of Bagad, Hadmantála and Kinára have been making fair progress towards the liquidation of their respective debts.

27. The conduct of Punja Vikamsi of Bagad in regard to the payment of his debts is as unsatisfactory as before. Much has been said regarding this estate in previous reports.

28. The creditors of the different estates of Bodána have not been paid off by an advance from the treasury. They are paid from the surplus revenue of the estates by instalments, and these payments are very small. The subject was brought to notice in last year's report, and Government in the concluding sentence of paragraph 2 of their Resolution No. 8641 of the 14th November 1889, ruled, that as the estates will remain for eight years more under management the question of paying off the creditors need not at present be taken into consideration.

29. A creditor of these estates lately appealed to Government for immediate payment of his settled claims, but Government declined to interfere with the orders already passed. At the same time, the attention of this office was drawn to the case (Resolution No. 4329 of 20th June 1890). A report was thereupon submitted from this office (No. 419, dated 23rd June 1890) in which it was shown that the creditors have no claims to be paid at once.

30. Certain creditors of the Bela Estates, who are both cultivators and mortgagees, declined to receive payment of a portion of their claims on account of some dispute about sharing the produce of their fields. The surplus income of the estate of Bela is therefore lying in deposit, and no payments appear against these estates this year. As the dispute has been settled, the payments will now be made. They will be included in next year's accounts.

31. Of the encumbered estates in Gogha, those of Bhojpura and Bhawánipura require no remarks beyond those made in the report of last year.

32. In Awánia an arrangement was made last year to sell some land from the estate of Virábhái Sumrábhái in satisfaction of the debt of a creditor who was also a Tálukdár of the same estate. But the arrangement was not carried out, and when Mr. Younghusband was lately at Gogha a settlement was made afresh with the consent of parties by which Virábhái agreed to pay a certain fixed sum annually till the debt be discharged, and it was arranged that the creditor should be paid at once from the treasury. For this purpose a loan of Rs. 400 will be applied for in due course.

33. Bhupatsing Sawábhái of Awánia, about whom a good deal has been written in previous reports, died during the year. His son has carried out the arrangements made during the life-time of his father and has signed the deeds of sale which Bhupatsing had declined to execute. The estate has now been put on a fairly satisfactory footing.

Remarks on other Estates in the Ahmedabad District.

34. Some correspondence has passed during the year under report regarding the principle upon which the settlement of the Kasbáti villages of Viramgám should be made. The subject was clearly laid before Government in this office No. 70 of 1st February 1890, to the address of the Collector of Ahmedabad. Government in their Resolution No. 2304 of 31st March 1890, decided finally that the system of Bhágbatái or crop shares should be maintained as at present, and that the increase of jama should be limited to 50 per cent. as in the case of the Tálukdári estates.

35. The lease to be given to Bápumia Shermia of Dholka for 11 Khálsa villages of that táluka has not yet been finally prepared. The annual amount of the jama, *viz*, Rs. 19,500, settled by Government Resolution No. 706 of 28th January 1889, has been reduced to Rs. 18,800 to be recovered by progressive instalments, by Government Resolution No. 3097 of 5th May 1890. It has been suggested to the Collector that the lease should be in a form similar to that given to the Viramgám Kasbátis and that it should be drafted by a Government Law officer. Mr. Younghusband in his No. 425, dated the 25th June 1890, to the address of the Collector, has ventured to urge certain objections which have occurred to him as regards the principle on which the amount of jama to be levied under the lease has been calculated, and has also pointed out an error in reference to the inclusion of certain old salámi on Bárkhali lands.

36. There is not much change to report in the very unsatisfactory condition of the Gangad Estate. Matters have been complicated by the death, in April last, of Nánbha, the second son of the late Thákor Gagubha, and the heir to the estate. A suit is pending against him in the Court of the First Class Subordinate Judge of Ahmedabad in which Jawánsing, the supposititious posthumous son of Bháisáheb, the elder brother of Nánbha, claims to be the heir to the estate. Nánbha being now deceased the true heir appears to be Gagubha Ráesingji, the minor Thákor of Makhiáv. He is a ward of the Collector and his interests will be carefully attended to by this office.

37. The Collector applied under Regulation VIII of 1827 to be made administrator of the estate and this application has recently been granted. The Collector will now be in a position to interfere on behalf of the rightful heir in all the litigation which is at present going on.

38. One Maganlál Bháishankar, a former Kárbhári of the estate, filed a suit against Nánbha for Rs. 46,000, a claim which Nánbha, who was a very weak youth, was almost induced to admit. The case, however, was given against Maganlál in the District Court and it is now before the High Court on appeal.

39. The hearing of all suits against the estate will probably be postponed pending the decision as to the succession.

40. A memorial under the signature of the Upari Kárkún of the estate, appealing against the orders of the Government of Bombay in the Shiál-Báoli boundary-dispute case, has recently been submitted through that Government to the Government of India.

41. In discharge of the debt of this estate Rs. 14,000 were paid to creditors direct during the year. Of the Rs. 9,000 placed at the disposal of the Court last year nothing has yet been paid to creditors on account of a reference having been made by the First Class Subordinate Judge to the High Court in regard to the expenses of management and certain other subjects. The matter has already been brought to the notice of Government and the Government Pleader, High Court, has been instructed to appear on behalf of the Collector.

42. The Thákor of Gamph, Ráesingji Nágjiráj, died in April and has been succeeded by his son, Agarsingji, who has barely attained his majority. Mr. Younghusband had an interview with him, and seems to consider him an intelligent and promising youth. The estate is very heavily in debt, but the young Thákor has already commenced to make large reductions in his establishment and has promised to introduce financial reforms where possible. He has kept on his father's old Kárbhári, and at present, at all events, there seems to be no cause for anxiety as to the prospects of the estate under his management.

43. In September 1889, Government sanctioned the application of Act VI of 1862 to the villages of Vadhela, Kapadiáli and Dhandodar. On the suggestion of the Legal Remembrancer action in the matter was postponed until the Limbdi Darbár had been given an opportunity of stating their views in regard to it. A very careful enquiry into the circumstances represented by the Darbár was made by Mr. Younghusband with the result that in February 1890 he submitted a detailed report showing how strong was the claim put forward by Limbdi, and asking for the cancellation of the notification of September 1889. Government in their Resolution, dated 3rd April 1890, were pleased to concur in the opinions expressed by the Tálukdári Settlement Officer and to cancel the notification. It appears that the Grássiás of these villages were relying on false documents to support their claim against the Darbár.

44. Orders are still awaited on the application made by Badi Bibi of Dholka for the sum of Rs. 1,000 for the repair of her ancestral house. The repairs appear to be necessary, and as pointed out by Mr. Younghusband in a report on the subject, the lady is not unnaturally unwilling to obtain the assistance asked for at the expense of her family pride, which is deeply concerned in preventing the demolition of any portion, however unnecessary it may be for her convenience, of the house which she has inherited from her ancestors. It is therefore hoped that her request may be granted.

Orders have just been passed.—Government Resolution No. 5063 of 19th July 1890.

Season.

45. The season this year in Ahmedabad was unfavourable, but not so much so as last year. The rice crop was a failure in most of the villages, the rain being insufficient. In some places the cotton crop was good, but the fall in prices reduced the income from 30 to 40 per cent. Other crops were from 8 to 12 annas in the rupee.

ENCUMBERED ESTATES IN KAIRA.—ACT XXI. OF 1881.

46. There were 50 estates managed under the Act at the end of last year. One estate has been removed from under its operation during the year under report. The number of estates under management on 31st July 1890 was therefore 49.

47. The estate which has been removed from management under the Act is that of Jafumia Nachumia of Málwan in Thásra Táluka. It is a small estate and concerning it no particular remark is necessary.

48. No advance was taken from the Government Treasury during the year under report.

49. The financial position of each of the 50 estates is shown in Appendix II. An abstract of this statement is contained in Appendix IV. from which it will be seen that Rs. 23 were paid to private creditors, and Rs. 33,378 to Government, and that a total sum of Rs. 2,21,869 remains to be paid, of which Rs. 7,668 are due to private creditors and Rs. 2,14,201 to Government.

50. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows :—

	1888-89.	1889-90.
	Rs.	Rs.
Total debt outstanding at commencement of the year	2,59,061	2,43,876*
Added during the year	561	...
	2,59,622	2,43,876
Paid during the year—		
To reduction of debt	16,560	22,007
To interest on loans	16,206	11,392
	32,766	33,399
Balance ...	2,43,062	2,21,869

* This amount is given according to the revised calculation made by the Accountant General.

51. It will be seen that the average percentage of payment is $13\frac{2}{3}$, and that the reduction of debt is 9 per cent., which is higher than the average of the previous year.

52. In paragraph 60 of the last year's report it was stated that the Pátidárs of Dabhán Wánta belonging to the estates of Rattansing Jijibhái and Wakhatsing Adesing of Kaira had instituted suits to assert their right to hold the Wánta at a fixed rental. As was expected, the suits have been rejected, but they have filed appeals in the District Court the results of which will be awaited.

53. No particular remark is called for in regard to other estates in Kaira.

Season.

54. The season in Kaira was on the whole a fair one, though the outturn of crops was not so great as was expected owing to the fall of rain being untimely and not general.

ENCUMBERED ESTATES IN BROACH.—ACT XXI. OF 1881.

55. The number of estates under management under the Act is the same as last year, *viz.*, 7.

56. The financial position of each of the 7 estates is shown in Appendix III. An abstract of this statement is contained in Appendix IV., from which it will be seen that Rs. 3,011 were paid to private creditors and Rs. 16,400 to Government, and that a total sum of Rs. 88,525 remains to be paid of which Rs. 37,187 are due to private creditors and Rs. 51,338 to Government.

57. The payments made on account of debt settlement during the year, compare with those of the previous year as follows :—

	1888-89.	1889-90.
	Rs.	Rs.
Total debt outstanding at commencement of the year	1,17,083	1,04,854*
Paid during the year—		
To reduction of debt	12,292	16,329
To interest on loans	4,754	3,082
	17,046	19,411
Balance ...	1,04,791	88,525.

* This amount is given according to the revised calculation made by the Accountant General.

58. It will be seen that the average percentage of payment is 18 per cent. and the reduction of debt is 15 per cent., which is much higher than the average of the previous year.

59. All the estates in Broach are making fair progress towards the liquidation of their debts and therefore no special remark in regard to them is necessary.

60. The High Court has sent back the case regarding the Sarod Estate to the lower Court in order that the plaintiff may be allowed to amend the plaint. This suit is now pending in the Court of the Assistant Judge at Broach.

Season.

61. The season in Broach was good this year. Much of the previous year's outstanding balance has been collected.

Minors.

62. The estates of 38 minors were under the management of this office under Act XX of 1864 at the beginning of the year under report, and 4 were added during the year, making a total of 42 at its close.

63. With the exception of 3 in Broach all these estates belong to Ahmedabad.

64. The estate of the Thákor of Mátar continues to be in a very satisfactory condition. The redemption of the mortgage land in Sarbhan belonging to a Bháyad has not yet been made owing to some dispute pending between creditors against the land.

65. The appeal of some of the collaterals of the late Thákor contesting the genuineness of the minor, is still pending.

66. The estate of Jitsingji Bháratsingji of Jhánor under Broach is also in a good condition. Rs. 50,000 have been invested in Government securities and Rs. 8,500 lent to the Kázi of Broach on the security of his estate at 5 per cent. interest. The allowances belonging to the estate in the Baroda territory have now been ordered by the Darbár to be paid. The sum in arrears amounting to Rs. 8,716 will be received next month. No answer has yet been obtained from the Political Agent, Bhopáwar, Sirdárpore, Central India, to whom application was made regarding certain income due to the estate from the village of Indi in Rájpur territory.

67. The grandmother of the minor, named Rattanba, has lately applied to be allowed to file a suit *in forma pauperis* against the Collector of Broach as administrator of the estate for the preposterous sum of over Rs. 81,000 as her maintenance from the estate. At the request of the Collector an offer of Rs. 500 per annum, which she previously received from her son, has been made to her on condition that she accepts this sum in full satisfaction of all past, present, and future, claims. Her vakil, a pleader of the High Court, has informed me that she proposes to sue for about one-third of the income of the estate as maintenance, and also for arrears at the same rate for the period which has elapsed since the death of her husband. No order has as yet been passed on her application.

68. Of the minors' estate in Ahmedabad, only 8 are unencumbered.

69. The estate of Subámia of Ránpur was almost cleared of debt when a suit was filed against him by one Hothiji, who calls himself a half-brother of Subámia, to obtain a share from the estate. The suit is against the Collector of Ahmedabad as administrator of the minor's estate, but as the minor has now come of age, the estate will be handed over to his charge from next year. There are harpies on both sides who are sure to devour the estate which has been made free of encumbrances.

70. There is nothing particular to notice in regard to the other estates.

71. Appendix V shows that putting together all the minors' estates under the charge of this office, the total realizations including the previous year's balance were Rs. 1,70,406, of which Rs. 32,085 were paid for Government jama and maintenance and other charges, and Rs. 1,38,321 were partly devoted to the payment of debt and partly carried over as savings. The total amount invested in Government securities is Rs. 80,000 and in landed property Rs. 8,509.

Education of Minors.

72. The Thákor of Uteliya attends the Rájkumár College at Rájkot. Eleven boys attend the Tálukdári Grássia School at Wadhwán, viz., 4 from Ahmedabad, 3 from Kaira and 4 from Broach. A few more will be sent there shortly.

Tálukdárs' Jubilee Memorial Fund.

73. The amount in hand of the Tálukdárs' Jubilee Fund is Rs. 21,210, of which Rs. 18,148 are in fixed deposit for a year in the Ahmedabad Branch of

the Bank of Bombay at 4 per cent. interest, and Rs. 3,062 are in the Post Office Savings Bank at Ahmedabad; Rs. 3,700 remain to be collected.

74. As mentioned in the report of last year the sum available is entirely insufficient for the establishment at Ahmedabad of a first class Tálukdári School, Mr. Pestanji's proposal that the old buildings of the Gáikwád's *haveli* should be handed over for a school, if it were open to objection on no others grounds, must be held to be impracticable for the reason that those buildings have been declared unsound. Whilst thus negativing as impossible with the funds now at our disposal the idea of establishing a new Tálukdári School in Ahmedabad, it has been considered by Mr. Younghusband that the form of the Jubilee Memorial should nevertheless be in some way connected with the education of the younger generation of the Tálukdárs. The scheme which Mr. Younghusband thought fittest for the attainment of this object aims at drawing closer the connection between the Tálukdári Grássia School at Wadhwán and the Tálukdárs of the districts of Ahmedabad, Kaira and Broach. The details of this scheme have not yet been fully worked out, but I trust that in a short time they will be ready to lay before the subscribers for their acceptance.

Miscellaneous Estates.

75. There are 8 estates under this head. Of these 3 are in Ahmedabad, 3 in Kaira and 2 in Broach.

76. The estate of Musámia of Sháhalam is only nominally under management. It is conducted by Musámia himself with the assistance of his Kárbhári. Very little supervision is exercised over it by this office, and it will probably be removed from the list next year.

77. The estate of Chándna has been under management for the liquidation of the debt due by the Kasbáti to Government under a deed passed by the Kasbáti in 1881. According to the condition of the deed the whole debt should be paid off before September 1891. This year only Rs. 200 have been paid. During the ten years it has been under management the debt has only been reduced from Rs. 5,166 to Rs. 2,566. Now but one year is left within which the Kasbáti must pay off the amount. He will be called upon to do so in due course, and the matter will form the subject of a separate report.

78. As noticed last year the surplus income of Dharoda has to be devoted to the satisfaction of the decree obtained by the Ahmedabad banker against the Syeds. The same banker has this year obtained another decree for the mesne profits of the shares which he has purchased, for the years which were not included in the previous decree. It will take two are three years to satisfy these two decrees.

79. The estate of Takhatsing Sardársing of Bhánpura in Borsad Táluka was removed from management under the Encumbered Estates Act last year, but, on the Tálukdár's application, the management has been retained under Section 28 of the Gujarát Tálukdárs' Act under the sanction accorded by Government in Resolution No. 5836 of 12th August 1889. This is the only case in which advantage has been taken of the provisions of that section.

80. The Kázi of Broach has availed himself of the loan sanctioned for the payment of his numerous creditors. As there was a surplus in the estate of the minor Thákor of Jhánor the opportunity was taken with the permission of the Collector of Broach to invest it in a loan to the Kázi. A sum of Rs. 8,500 has been advanced to the Kázi at 5 per cent. interest on the security of his landed property which will now be managed as a portion of the Jhánor Estate till the amount is paid off.

General Revenue Administration of Tálukdári Villages in Ahmedabad.

81. There are 356 Tálukdári villages in Ahmedabad under the Revenue charge of this office and their jama, inclusive of the Local Fund Cess, amounts to Rs. 3,71,508 for the year under report.

82. The nature of the season this year is described in paragraph 45. With the exception of about Rs. 2,714, the whole of the Government jama has been collected. The rice crop was a failure in many of the villages. Owing to the successive bad seasons, the Tálukdárs of those villages where rice is the principle produce have suffered very much.

83. In the village of Návda the whole income in 1888-89, after defraying expenses, fell short of the Government jama by Rs. 2,870. On a recommendation from this office Government, in their Resolution No. 3119, of the 6th May 1890, were pleased to remit that sum. This year the whole income is Rs. 5,939, and after paying the expenses there will be a deficit of about Rs. 2,400 in the Government jama, which will have to be remitted as last year and for which a separate application will be made.

84. This village is now involved in a suit against the Limbdi Darbár, the decision in which will affect materially the prospects of its rice crops. This suit has regard to the water of the Utáwali river, the usual course of which is through part of the lands of Návda. Under pretence of obeying an order of the High Court to remove a bund placed across the river fifteen years ago by Mr. Lely, the inhabitants of the Limbdi village of Vadhela have cut away part of the bank of the river in such a way as to carry the flood water into a channel which brings it to their lands and deprives the Návda people of water which is essentially necessary for their rice cultivation.

85. A half share of the village of Chásiana in Dhandhuka is managed as a precautionary measure for the Government jama on account of a dispute between the sharers, Umedsing and Devising, Bháyat of the Limbdi Darbár, as to the amount of the share of each. Repeated endeavours have been made to bring about an agreement between these parties, but without success. In the meantime, the surplus revenue of the estate in the hands of the Tálukdári Settlement Officer has mounted up to the sum of Rs. 46,000 and instructions have been asked for as to whether there is any legal objection to the investment of this sum in the name of the estate. As both the parties are able to offer satisfactory security for the payment of the Government jama, the attachment under Section 144, Land Revenue Code, will have to be removed; but Government have been asked to direct attachment under Section 26, Act VI of 1888. Pending orders the present attachment will be continued.

86. The Thákor of Limbdi submitted a memorial to Government urging that his village of Wásna was not liable to pay fluctuating jama. On a report being sent from this office on the subject, Government, in their Resolution No. 9610, of 19th December 1889, declined to admit his claim.

87. A project is now under consideration for the drainage of the Bhal Country, which, if sanctioned and carried out, will prove beneficial to the villagers and will also bring about an increase in the revenue derived from these lands. The area which will be beneficially affected by the schemes proposed by the Executive Engineer is 182 square miles, a great portion of which is land the property of Tálukdárs. This country is the receiving ground for the flood waters of the Utávli, the Silka and the Pinjari rivers, as well as for those of several smaller streams. These rivers have become heavily silted up and hence the waters have no free escape along the lines of their beds, the result being that they spread all over the adjacent country. The object of the drainage scheme is threefold—first, to allow of the reclamation of a large area of salt land which by constant washing with rain-water will become sweet; secondly, to carry off the surplus surface water from lands now water-logged; and, thirdly, to improve the wells used for drinking purposes, the water in which is now brackish, but which will again become sweet when the flood water from above is allowed a free escape over the land in which the wells are situated. The rough estimate for the project amounts to something between a lákh and a lákh and a half of rupees. It is not possible to state even approximately the extent to which the Government jama would be increased as a result of the improvement of the land, but there is, I think, no doubt that the work would be remunerative.

88. In accordance with the policy laid down in Government Resolution No. 4580, dated 27th June 1889, the Tálukdárs whose properties will be benefitted by the proposed drainage scheme have been asked if they are willing to hand over for management under Section 28, Act VI of 1888, the waste lands of their villages. Out of 15 Tálukdárs to whom a circular was sent only 7 have as yet replied and these express their unwillingness to hand over the land in question.

89. The following table shows the collection and expenditure of the Local Fund in the Tálukdári villages of Ahmedabad in the year under report :—

Name of Táluka.	Amount of Local Fund collected.	Amount of Local Fund expended.			
		Object.		Rs.	Total.
	Rs.				Rs.
Dholka ...	6,339	Repairs to school-houses		137	
		Repairs to dharmshálás		31	
		New wells		1,143	
		Deepening tanks		1,151	
					2,462
Dhandhuka ...	12,167	Repairs to school-houses		644	
		Repairs to dharmshálás		88	
		A new dharmshála		751	
		Deepening tanks		780	
		New well		500	
					2,763
Viramgám ...	2,710	Repairs to school-houses ...		251	251
Sánand ...	3,636	Repairs to school-houses		185	
		Deepening tank		1,050	
		New wells		560	
					1,795
Gogha ...	1,752	Repairs to school-houses		10	
		Repairs to wells		299	
		Repairs to dharmshálás		34	
					343
					7,614

90. The collection and expenditure as shown above compare as follows with those of the previous two years :—

Year.	Amount collected from the villages.	Amount expended in the villages.
	Rs.	Rs.
1887-88	26,604	9,792
1888-89	26,604	3,840
1889-90	26,604	7,614

91. In their Resolution No. 4580, dated the 27th June 1889, Government laid down certain rules in regard to the levy of Local Fund Cess from Tálukdári estates with special reference to cases such as that of the Thákor Sáheb of Limbdi. Steps have been taken during the year under report to estimate the sum which, in accordance with these rules, the Thákor Sáheb should be called on to pay. When the orders of Government were made known to the Darbár in September last, he presented an application for their reconsideration first to the Tálukdári Settlement Officer and then to Government. A lengthy report has been submitted by Mr. Younghusband and orders on it are now awaited.

92. The sum which, under the rules contained in the Government Resolution above cited, the Limbdi Darbár will have to pay amounts to Rs. 6,000 or

Rs. 7,000 per annum; and pending the decision of Government on the points submitted by the Thákor Sáheb, this amount is being lost to the Local Funds of the Ahmedabad District.

93. Appendix VIII gives a list of Tálukdári estates under management for the collection of jama.

Revision Survey and Settlement.

94. As noticed in the administration report of last year (paragraph 100), Government, in their Resolution No. 4580 of 27th June 1889, have now passed final orders on the subject of the revision of the survey assessment and jama of the Tálukdári villages. These orders contained detailed instructions as to the principles by which the officers concerned are to be guided in disposing of questions relating to assessment, jama, Local Fund Cess and alienations.

95. From March to May 1889, the survey work was carried on by Mr. Price, of the Gujarát Revenue Survey Department, who retired from the service on 31st May. In October 1889, Colonel Godfrey, the Survey and Settlement Commissioner, proposed to Government that the Tálukdári Survey work should be entrusted to a special officer, graded as an Assistant Superintendent of Survey, who should receive an extra allowance in consideration of the intricate and responsible nature of the duties he would have to perform. Government were pleased to sanction the Commissioner's proposal and by Government Resolution No. 7968 of the 21st October 1889, Mr. F. W. Francis was appointed Assistant Settlement Officer in charge of the Tálukdári Survey. By a subsequent Resolution Government ordered that the salary and allowances of Mr. Francis and of his establishment should be borne entirely by the General Revenues and should not be debited to the estates.

96. During the year under report Mr. Francis has been engaged in revising the survey work of the Tálukdári villages in the Dholka and Dhandhuka Tálukas. As he reports the results of his work only to the Survey and Settlement Commissioner through the Deputy Superintendent of the Gujarát Survey, there is no information in this office as to what he has done. For the future, however, it has been ordered by Colonel Godfrey that correspondence having regard to points which when they arise appear to Mr. Francis to require distinct orders for their disposal, is to be forwarded to the Survey and Settlement Commissioner, through this office as well as through that of the Deputy Superintendent, so that this Department may have an opportunity of seeing what is proposed and of having its say in the matter before the final orders are passed. No settlement work either of assessment or jama can of course be taken in hand until the revision of the old measurement and classification on the lines laid down by Government in the above quoted Resolution has been effected.

97. There is nothing particular to be said regarding the boundary marks of Tálukdári villages. As regards the placing of stone marks as suggested in the last year's report nothing has yet been decided, but as the revision settlement is now in progress, arrangements will be made in consultation with the Survey Department.

Estates under Sections 320 and 504 of the Civil Procedure Code.

98. There were 336 decrees under execution under Section 320 of the Civil Procedure Code at the end of 1888-89.

99. The number of decrees received for execution during the year under report was 126 against 130, 116 and 149 in the three preceding years.

100. Thus the number for the year 1889-90 (inclusive of the previous year's balance, 336) was 462. In addition to this, 116 decrees were received under notices issued under Section 322, making a total of 578.

101. Of these:—

282 were under management;

53 were under process of sale;

118 were returned to Courts; and

125 were under enquiry.

102. Of the 118 decrees returned to the Courts—

29 have been satisfied by compromise:

59 have been satisfied by paying the amount from the defendants' property under management;

5 returned, as Government declined to sanction the sale of the property under Section 31 of the Gujarát Tálukdárs' Act VI. of 1888;

2 returned as no bid was made for the property;

23 returned to Courts, without execution, as they were received after action was taken under Section 322 and for other reasons.

103. The following table shows the manner in which the decrees received in each year and those brought over from the previous years were disposed of during the last three years:—

	1887-88.		1888-89.		1889-90.	
	No. of decrees.	Amount.	No. of decrees.	Amount.	No. of decrees.	Amount.
		Rs.		Rs.		Rs.
Returned after disposal by compromise, &c.	80	42,798	122	87,758	118	29,967
Under payment by instalments from revenues of estates taken under management.	212	1,34,858	221	2,59,852	282	3,27,710
Under process of sale ...	25	33,686	41	55,317	53	74,068
Under enquiry	115	1,01,876	154	1,09,293	125	1,17,212
	432	3,13,218	538	5,12,210	578	5,48,957
Amount paid to creditors direct or through the Civil Courts ...	...	25,038	...	35,709	...	35,327

104. The decrees for the year 1889-90, above shown, belong to the Tálukdárs of Dhandhuka, Dholka, Sánand, Gogha and Viramgám in the Ahmedabad Collectorate.

105. There were 9 estates under management under Section 504 at the end of 1888-89; 3 were removed during the year under report and 6 remained at its close. These are all in the tálukás of Dhandhuka, Viramgám and Parántij of the Ahmedabad Collectorate.

106. The money realized from the management and sale of the estates under decrees and sent to the Civil Courts in the year under report amounted to Rs. 29,299.

Partition.

107. The partition of one village (Ukardi in Viramgám), which was pending from the previous year, has been completed, and parties put in possession of their respective shares.

108. Under Section 12 of the Gujarát Tálukdárs' Act, 9 applications for partition were pending at the beginning of the year, and 12 more applications have since been received, making a total of 21 at the close of the year under report.

109. Of the 21 cases, decisions have been passed for partition in 7. Appeals have been filed in the District Court against two of these decisions. In one case the application for partition has been refused. In another case, all the parties agreed that there was already a partition made, and that no action was necessary. In default of the appearance of the applicants 2 cases were thrown out. Ten cases are under enquiry. None of these cases is of an important nature, and no special remarks are called for.

Suits.

110. There were 26 original suits and appeals pending at the beginning of the year under report and 6 original suits have been added during the year, bringing the total number up to 32.

111. Nineteen cases have been decided during the year, of which the following are the more important.

112 The High Court has remanded to the lower Court for retrial on its merits the suit filed by the Thákor Sáheb of Limbdi against the Secretary of State for India, to dispute the levy of jama from the Grássias' half village of Akru.

113. The 8 suits filed by the Pátidárs of Dhabhán, Táluka Nadiád, for the declaration of their right to enjoy the Wánta of Dabhán on payment of a fixed rental have all been rejected. But they have filed appeals in the District Court. The Wánta belongs to the Thákors of Kaira whose estates are managed under the Encumbered Estates Act. The Pátidárs were enjoying it for a nominal rental under a lease which they allege to be a permanent one. Full survey assessments have been recovered from them, and they have been defeated in the first Court. The results of the appeals will now have to be awaited.

114. The appeal in the District Court filed by Jivandas Anandji who disputes his liability to pay jama on the *jirai* lands included in the ¾ths share of the villages of Ukharla and Trimbak in Gogha which he has purchased at an auction sale, have been rejected. He has filed an appeal in the High Court.

115. In the Sarod succession case, the High Court has remanded the suit for re-trial, allowing the plaintiff to amend the plaint.

116. Of the 19 cases decided during the year under report, 15 have been decided in favour of this department, 2 in favour of plaintiffs, and 2 have been remanded for retrial.

117. The following table shows the cost of litigation incurred by the estates during the year under report :—

Total Expenditure incurred by the Estates.	Recovered from Plaintiffs.	Net Expenditure to Estates.
Rs. a. p.	Rs. a. p.	Rs. a. p.
450 11 7	75 0 10	375 10 9

Financial Review.

118. The following abstract gives at one view the financial results of the management of estates for the year under report :—

	Number of Estates.	Gross Revenue including previous year's Outstanding Balances.	Total Revenue realized, including past year's Balance in hand.	Charges of all kinds: Government dues.	Collection, &c., Charges in the Tálukas.	Táluk-dári Settlement Officer and Establishment Charges.	Maintenance, Education and other Expenses of Táluk-dárs.	Miscellaneous.	Total.	Paid to creditors.	Balance in hand at the close of the year.	Outstanding balances written off.	Outstanding balance at the close of the year.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Estates under Encumbered Estates Acts ...	103	2,59,898	2,90,652	67,560	12,670	7,717	40,249	5,278	1,33,474	78,659	78,519	846	29,143
All other Estates under management	253	3,44,389	4,55,618	77,767	12,782	8,489	30,143	10,345	1,39,526	40,805	2,75,287	11,357	31,851
Total ...	356	6,04,287	7,46,270	1,45,327	25,452	16,206	70,392	15,623	2,73,000	1,19,464	3,53,806	11,703	60,994

119. The details of this abstract will be found in Appendix XII.

120. A comparison of percentages of collection, remission and outstanding balances, to the total realizable revenue of the estates under management for the year under report with those of the previous two years is shown in the following table :—

	Year.	Gross Revenues, including Arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of Collection.	Percentage of Remission.	Percentage of Outstanding.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad	1887-88	2,33,793	2,06,000	2,464	25,329	88	1	11
	1888-89	2,80,984	2,48,438	2,000	30,546	88½	¾	10¾
	1889-90	3,08,815	2,63,355	11,193	34,267	85¼	3½	11¼
Kaira ...	1887-88	1,05,032	1,02,616	287	2,129	97¾	¼	2
	1888-89	1,07,421	1,02,707	357	4,357	95⅔	⅓	4
	1889-90	1,03,606	1,00,029	89	3,488	96½	...	3½
Broach ...	1887-88	1,91,965	1,58,008	1,850	32,107	82⅓	1	16⅔
	1888-89	1,23,169	80,769	2,564	39,836	65½	2	32½
	1889-90	1,91,866	1,68,206	421	23,239	87½	¼	12¼
Total ...	1887-88	5,30,790	4,66,624	4,601	59,565	87⅕	⅕	11⅖
	1888-89	5,11,574	4,31,914	4,921	74,739	84½	1	14½
	1889-90	6,04,287	5,31,590	11,703	60,994	88	2	10

121. It will be seen that owing to the unfavourable character of the season, the percentage of collection this year is lower, and that of remission and outstanding correspondingly higher, than those of the last in Ahmedabad.

122. The large amount of remission in Ahmedabad is on account of the Gangad Estate. There was some outstanding balance of the time of the late Thákor, and, as it was found to be irrecoverable, it was written off.

123. The following table shows the average percentage of expenses of management to realizable revenue and to actual collection of each district separately, and of all the three districts together for the year under report:—

Collectorate.		Tálukdári Settlement Office.	Local Expenses of Collection, &c.	Total average Percentage.
Ahmedabad... ...	On realizable revenue ...	2·95	4·25	7·20
	On actual collection ...	3·46	4·98	8·44
Kaira	On realizable revenue ...	3·73	5·84	9·57
	On actual collection ...	3·87	6·05	9·92
Broach	On realizable revenue ...	2·52	4·93	7·45
	On actual collection ...	3·10	6·06	9·16
Total average percentage.	On realizable revenue ...	3·00	4·71	7·71
	On actual collection ...	3·47	5·45	8·92

Working of the Gujarát Tálukdárs' Act VI of 1888.

124. In their Resolution on the administration report of last year, Government were pleased to order that the working of the Gujarát Tálukdárs Act, 1888, should be carefully noticed in the next report. I fear, however, that there is not very much to say on the subject beyond remarking that the Act has on the whole worked smoothly and has so far been found suitable.

125. The Thákors of Limbdi, Jasdan, Vála and Vánkáner have forwarded to Government for submission to the Secretary of State memorials protesting against the Act. In these, as pointed out by Mr. Younghusband in his report of the 27th June last, they arrogate to themselves a position to which in regard to their villages in this district they are not entitled, and on the strength of which they argue that they should be placed beyond the reach of the general Revenue law of the Presidency. The objections raised by them have been fully dealt with by Mr. Younghusband and call for no further remarks here.

126. Nothing has as yet been done in the way of settlement or the record of rights, and no progress can be made in this direction until the materials have been furnished by the Survey Department.

127. Partition cases have not progressed as satisfactorily as was to be esired, but this fact is due to the dilatoriness of parties. A certain number o

orders however have been passed, the details of which are given in paragraphs 107 to 109.

128. In the case of the Chasiana Estate, alluded to above in paragraph 85, a recommendation has been made for the application of Section 26 of the Act.

129. An attempt to induce Tálukdárs to make over their waste land as indicated in Government Resolution No. 4580 of 17th June 1889 has so far been entirely unsuccessful.

130. Under Section 30 of the Act, the Police officers and establishment requisite in the villages in a Tálukdári estate are chargeable to the Tálukdár. A scheme has been prepared during the year under report for the Police arrangements necessary in the villages under Limbdi. There is at present a post of the Ahmedabad District Police in the Limbdi village of Barwala. It has been proposed, and the proposal has received the sanction of Government, to establish another post at Jálila, the cost to be borne entirely by the Darbár and to charge to the Thákor Sáheb a share in the expenses of the Barwala post proportionate to the work done by it in his villages. Orders as to the exact proportion are awaited. Mr. Younghusband has recommended that Government and the Limbdi Darbár should each pay half. In addition to the above arrangements for District Police, Government have approved the proposal submitted to them that in each of the villages under Limbdi two Chokiats should be entertained as village police.

131. If the proposal of Mr. Younghusband, as to the share of the Barwala post which should be borne by the Darbár, be accepted the amount chargeable to Limbdi will be—

			Rs.	a.	p.
District Police	...	...	... 2,768	8	1
Village Police	...	...	... 3,600	0	0
		Total	6,368	8	1

in addition to the percentage on account of European supervision, arms, &c., and pension.

132. A scheme for providing the Tálukdári and Thákori villages of the Borsad and A'nand Tálukás of the Kaira District with village police at the cost of the Tálukdárs and Thákors is under the consideration of the Magistrate of that district.

133. During the past year a reference was made to Government from this office with a view to obtaining instructions as to the considerations which should influence the Tálukdári Settlement Officer in applying for sanction to sales under Section 31 of the Act. In their Resolution No. 42, dated 3rd January 1890 Government were pleased to direct that no alienations of Tálukdári lands should be recommended for sanction unless they were absolutely necessary for preserving an estate from complete ruin, or for the protection of Government revenue, and that in all other cases the person asking for sanction should be referred to Government. In accordance with the procedure here indicated several creditors have been referred to Government who have been pleased to refuse their applications.

134. Section 31 (1) requires the previous written consent of the Tálukdári Settlement Officer to any encumbrance of Tálukdári lands to hold good beyond the life-time of the Tálukdár. Forty-six applications were received during the year under report requesting permission to borrow sums aggregating Rs. 2,56,500. In 10 of these cases the required consent was given for sums varying from Rs. 200 to Rs. 15,000, aggregating Rs. 33,850. In 20 cases consent was refused; in 11 petitions were returned to the applicants for further information, and 5 cases are now under enquiry.

135. The reasons for the refusal of consent in 20 cases were various. Rupáliba, mother of the Koth Thákor and administratrix of his estate, applied for permission to borrow Rs. 40,000. As she holds a certificate of administration from the District Court consent was refused until the permission of the court should be obtained. In some cases annual income was found to be sufficient to meet the desired expenditure and there was therefore no need for the loan; in others, the property was already under attachment in execution of a decree of

the Civil Court. In granting applications under this section the lines laid down by Mr. Pestanji in the Administration Report of last year were strictly followed by Mr. Younghusband.

RESUME'.

136. The following is a resumé of the operations of this department during the year under report in all the districts, under the several heads mentioned:—

1. Estates under management—Rs. 356.
2. Their total revenue—Rs. 4,66,027.
3. Amount collected—Rs. 5,31,590.
4. New estates brought under Act VI of 1862—2.
5. Number of creditors' claims under Act VI of 1862 enquired into and awards made—1,016.
6. Debt settlement schemes submitted—2.
7. Amount of creditors' claims recorded—Rs. 3,27,872.
8. Decrees received from the Civil Courts for execution—126.
9. Decrees inclusive of those brought over from previous years, executed by compromise, sale, management, &c.—400.
10. Amount paid to private creditors—Rs. 52,903.
11. Amount paid to Government—Rs. 66,561.
12. Amount paid to Tálukdárs, Thákors, &c., for maintenance and other expenses—Rs. 70,392.
13. Paid for Government Jama—Rs. 1,45,327.
14. Paid for expenses of collection, supervision, &c.—Rs. 41,658.
15. Minors' money invested in Government securities—Rs. 50,000: Landed property—Rs. 8,500: Total investment—Rs. 88,500.
16. Estates under enquiry for partition—21.
17. Original suits and appeals—32.
18. Revenue of 356 Tálukdári villages in the Ahmedabad Collectorate under the revenue charge of this office collected—Rs. 3,74,110.
19. Percentages of collection, remission and outstanding to total realizable revenue—88, 2, 10.
20. Percentage of collection and management charges to total realizable revenue and to actual collection—7·71 and 8·92.

ESTABLISHMENT.

137. The question of re-adjustment of the expenses of this office between Government and the estates is now under the consideration of Government. Under the new Tálukdári Act a great deal of additional work will be thrown on the establishment, and as the greater part of this work is for the benefit of Government rather than of the estates it is hoped that in the re-adjustment the charges borne by the estates will be reduced. In modification of the orders already passed Government have been pleased to declare that the office establishment of the Tálukdári Settlement Officer is in foreign service of the second kind. Government have also decided that the estates cannot be exempted from payment of pension contribution under the rules on the portion of the Tálukdári Settlement Officer's pay which is at present borne by them.

138. During the year under report the establishment have worked well and as usual Mr. Hathising Ráichand, the Head Clerk, has rendered the most valuable assistance. The intimate acquaintance with the past vernacular correspondence of the office which is possessed by the Sheristadár, Mr. Shivshanker Bechar, makes him also a very useful member of the establishment.

I have the honour to be,

Sir

Your most obedient Servant,

H. O. QUIN,

Acting Tálukdári Settlement Officer.

The figures marked with "R" in column 7 are on account of remissions granted during the year.

H. O. QUIN,
Acting Tálukdári Settlement Officer.

No. 3028 of 1890.

Revenue Department.

Ahmedabad, 14th August 1890.

Forwarded to Government.

A report by a *locum tenens* cannot but be wanting in the treatment of matters to which the permanent officer would attach importance. Nevertheless, Mr. Quin has given a concise and clear account of the working of the Tálukdári Settlement Office.

2. The Government have, at the present moment, before them a proposal for reducing the proportion of the cost of Tálukdári Officer and his establishment debited to the Estates. The present report shows how much the interests of Government are bound up in this office, and that though the management of estates and the paying off of debts takes a share of the Tálukdári Settlement Officer's time, still he has also very important duties in collecting the Government revenue. From paragraph 3 it appears that the Tálukdári Settlement Officer is responsible for collecting Rs. 3,71,508 from Tálukdári estates and Rs. 4,66,027 from all the estates under him, and the difficulty of collecting from embarrassed estates is much greater than if they were solvent.

3. The fluctuations in the number of estates managed under the Act call for no special remark. The figures at the end of each year are as follow :—

	1888-89.	1889-90.
Ahmedabad	37	38
Kaira	50	49
Broach...	7	7

The results as regards paying off of debt may be gathered from the appendices as follows :—

District.	Estates under management for debt.	Debt at commencement of year and interest accumulated during the year.	Payment.	Percentage of Payment to debt.	Remarks.
		Rs.	Rs.	Rs.	
Ahmedabad ...	31	1,59,450	23,730	15$\frac{1}{3}$	The debts of 7 more estates not yet been settled.
	Estates removed from the Act, but managed for debt due to Government.				
Do. ...	8*	13,306	2,119	16	*Includes one removed during the year.
	Estates under management.				
Kaira	50†	2,55,268	33,399	13$\frac{2}{3}$	†Includes one removed during the year.
Broach... ...	7	1,07,936	19,410	18	

The percentages last year were 15$\frac{1}{2}$, 16, 12$\frac{2}{3}$ and 14$\frac{1}{2}$. The progress made has, therefore, been maintained. The figures of indebtedness to Government are as follows:—

Year.	Advances outstanding at end of previous year.	Further advances and interest accrued up to 31st July 1890.	Total advances with interest.	Amount repaid during the year.	Balance outstanding.
	Rs.	Rs.	Rs.	Rs.	Rs.
1888-89	4,42,036	30,681	4,72,717	66,378	4,06,339
1889-90	4,07,218	24,669	4,31,887	66,561	3,65,326

The balance not paid to creditors was Rs. 91,975 against Rs. 1,08,611 in 1888-89. These figures are, of course, liable to fluctuation when new estates are brought under the Act. The amount of work done in settlement of claims has been considerable. Out of 1,051 claims against 7 estates it is satisfactory that only 35 remain to be settled. The Tálukdári Settlement Officer should lose no time in submitting the 5 remaining settlement schemes to Government for approval. As a measure of the protection which the Act affords, the reduction of claims of Rs. 24,766 to Rs. 9,505 affords an example. The Commissioner has no doubt that if the courts were always allowed to go behind the bond, results equally startling would be found every day amongst the numerous cases which now go by default and end in the selling up of the land. But this is a matter that should form the subject of a separate representation.

4. The Commissioner will not repeat the table constructed in the review of last year's report, as owing to the figure of "Debt outstanding" containing debts brought on the list during the year, the percentage gives an erroneous idea of the progress made in paying off debts, which has been stated above in paragraph 3 already.

5. Paragraphs 118 and 123 and Appendix XII give the financial review of all the estates. The amount of outstanding revenues is not in the Commissioner's opinion satisfactory. Even if slightly better than in the previous year, better results should be shown in 1890-91. It is possible column 16, which gives the amount outstanding in the village, represents shares of crops actually collected from the cultivators but the price of which has not yet been realized, or it may be that some old irrecoverable outstandings not yet written off are included. Whatever the explanation, the Commissioner fears that in some instances failure to look after the vahivátdárs and talátis and ensure their submitting punctual accounts must have something to do with it. A Tálukdári estate under management should set an example of punctuality. It would be well if, supposing that next year the results are equally open to comment, the Tálukdári Settlement Officer reports more fully on the column of outstandings in Appendix XII.

6. Government will notice from paragraphs 21 to 25 the serious results which follow unseasonable rain in parts of Gujarát. The growing of 'akasya' rice in the Sánand and other tálukás is really akin to gambling. Unless several very heavy falls of rain occur at particular times, the crop is ruined even though the total rainfall be up to the average. But the cultivation in question is so profitable in a good season that the cultivators will not think of sowing dry crops, always hoping for rice. It is hardly advisable to interfere with the Tálukdári Settlement Officer in matters of detail, but the Commissioner considers he would set a very useful example if in some of the villages under management he converted some of the least profitable rice into dry-crop land. Government will note the serious results of the fall in the price of cotton alluded to in paragraph 45, which will now be accentuated by the rise in exchange. If the mixing of different varieties and calling them by false names is permitted to continue, the loss to the cultivators and Tálukdárs and probably to Government, at the coming revision of 'jama,' will be serious. Trade can take care of itself, but trade does not mind the depreciation of an article as long as it makes a profit on it. The following figures show how Dholera cotton has deteriorated in comparison with American during three years:—

	July, 1890.	July, 1889.	July, 1888.
Middling American ...	6¼	6 5/16	5 9/16
Good fair Dholera ...	4¼	4 3/8	4 5/16
Difference ...	2¼	1 13/16	1¼

7. In paragraph 27 the unsatisfactory behaviour of Punja Vikamsi of Bagad is referred to; but the Commissioner, N. D., fails to find any statement of

this behaviour or any reason why the Tálukdári Settlement Officer should allow it. In paragraph 23 of the report for 1885-86 the individual in question was reported to be playing false, understating his debts and misappropriating his revenues privately, and in paragraph 30 of the report for 1887-88 the Tálukdári Settlement Officer reported his having taken the estate under direct management. It is not clear, therefore, why the Tálukdári Settlement Officer continues to complain.

8. Mr. Quin in paragraph 35 refers to Bápu Mia's lease and certain faults which Mr. Younghusband thought that he had found with the provisions sanctioned by Government. The Commissioner has, however, pointed out that the terms which were laid down by Government themselves were equitable, and Government have since confirmed the lease.

9. The Collector has been requested, now that the courts have given him power under Regulation VIII of 1827, to enquire into the unsecured debts of the Gangad Estate, alluded to in paragraph 40 of the Tálukdári Settlement Officer's report for 1887-88.

10. The Tálukdári Settlement Officer has now an admirable opportunity of showing what the exercise of a little tact and kindly assistance will do, seeing that the Thákor of Gamph, which is one of the principal estates in the Presidency, is dead, leaving an embarrassed estate and an uneducated but well-intentioned son. The Commissioner is sure that Mr. Younghusband will not fail to help the young Thákor, if he allows himself to be helped.

11. Paragraph 87 of the Tálukdári Settlement Officer's report for 1886-87 gave an account of how an unscrupulous individual had initiated an entirely unnecessary and factious suit about the Sarod Estate solely for his own ends. In 1887-88 the report was that the suit had been thrown out on a question of stamp duty, and the Tálukdári Settlement Officer hoped it would go no further, and that the speculator would drop it. In this, however, the Tálukdári Settlement Officer was disappointed, as now in 1889-90, three years after the commencement of the suit, we find that the courts have got so far as to order the plaint to be amended.

12. Paragraphs 66 to 72 deal with 38 minors' estates. One of the most gratifying parts of the report is the attention that is being paid to their education.

13. It is greatly to be regretted that so long a time should have elapsed without the Tálukdárs' Jubilee Fund being put to any useful purpose. The Tálukdári Settlement Officer, at whose predecessor's instance it was raised, is now arranging with the subscribers as to the end to which it should be devoted. The Commissioner quite concurs in the project alluded to by Mr. Quin.

14. Mr. Quin's 88th and 129th paragraphs report that seven Tálukdárs decline to give up to Government for management such of the waste land as will be brought under cultivation by the Bhál drainage project. The Commissioner is not aware how the Bhál drainage project stands at the present moment, but he believes it is kept back pending a report on the Viramgám drainage, which has recently been received from the Collector and which has been so successful as to justify other efforts in the same direction. The Collector and the Tálukdári Settlement Officer will, no doubt, give to the Bhál scheme, which will be a most remunerative one and beneficial to the district generally, their warm assistance, and it will require great care to work out the actual revenue which may be depended upon. The Commissioner trusts, therefore, that the Tálukdári Settlement Officer will be able by the exercise of his personal influence not only to obtain the management of the water-logged tracts of Tálukdári villages in the Bhal, but in the Nalkanta where much land is waste. Cultivators will not immigrate to Tálukdári villages owing to the costliness and uncertainty of Bhágbatái payments, but if the matter were properly explained to the Tálukdárs, and Mr. Younghusband broke up some of the waste and offered it at survey rates, there can be no question that much land would be taken up to the benefit of the Tálukdárs and Government alike. Mr. Younghusband will have many good opportunities for making arrangements of the kind when he is settling the jama, and the Commissioner is sure he will not let them pass.

15. Government will notice that a sum of Rs. 7,614 was spent in Tálukdári villages from Local Funds, but as pointed out by the Tálukdári Settlement Officer in paragraph 91, one of the largest estates, that of the Thákor of Limbdi, pays probably only one-tenth of its due quota. Recent orders of Government will soon put an end to this anomaly.

16. The report is silent on one important point *viz.*, the progress made by the Tálukdári Survey. The reason stated is that the Government Resolution No. 4580, dated 27th June 1889, paragraph 13, decided that the Survey Department was to undertake the measurement and classification, and the Tálukdári Settlement Officer was only to intervene when the 'Jama' came to be settled. The Acting Survey Commissioner had, however, already arranged at the Commissioner's instance that all correspondence should go through the Tálukdári Settlement Officer so that he might know what was proposed and be kept *au courant* with the Survey operations. The Tálukdári Settlement Officer should therefore have been acquainted with the amount of work done. The Commissioner will endeavour to arrange with the Survey Commissioner that the Tálukdári Settlement Officer may see the progress reports. The Tálukdári Settlement Officer will then know when to commence the revision of jama and also show the way to avoid unnecessary elaboration of work and consequent prolongation of the Survey, to which the Commissioner fears there was at one time a tendency. It is to be hoped that the revision of jama will certainly be commenced next cold weather.

17. Paragraphs 98 to 106 show that no less than 578 decrees were with the Tálukdári Settlement Officer for execution, of which 126 decrees and 116 notices under Section 322 of the Civil Procedure Code were received during the year. It is to be regretted that the Tálukdári Settlement Officer has said so little on this important subject, not even stating the nature of the estates or the districts from which they came. From Appendix IX it appears they were all Grássia estates in the Ahmedabad District. Bearing in mind the remarks made in paragraph 120 of last year's report, the Commissioner regrets to find 118 cases were compromised. It is, however, satisfactory that in 282 cases instalments are being made from estates under management though 53 are in process of sale and 125 is a large number to be "under enquiry." The Tálukdári Settlement Officer could give most valuable information as to the working of Section 320 *et seq* of the Civil Procedure Code, and in future years he should do so, as it will facilitate those sections being more widely taken advantage of in other districts. Mr. Quin having only been a short time in charge, no doubt did not feel himself in a position to do more than follow the lines of his predecessors' reports.

18. The Commissioner has already noted on the financial results. The table at paragraph 118 is satisfactory. Charges have risen from Rs. 2,51,570 as against Rs. 2,73,000, but of the increase of Rs. 21,000, Rs. 9,000 is due to Government dues, more than Rs. 1,000 to the Tálukdári Settlement Officer and his establishment, whose pension charges have been increased under recent rules, and Rs. 9,000 is due to education and maintenance of Tálukdárs (an item which might have been explained), and only Rs. 345 to increase of the real working and collecting establishment in the villages. It is noteworthy that out of the total collections (including some arrears) of Rs. 6,04,287 the Government jama (and Local Funds) took Rs. 1,45,327, or nearly 25 per cent. It is difficult to found any conclusions upon this, as the collections are based upon various assessments; still, assuming all the rents to be recovered in kind, as is the case with a large proportion of them (the Tálukdári Settlement Officer has said nothing as to the way in which he disposed of the produce in the year under report), and that the usual Tálukdár's share is one-third, it means that Government take $\frac{1}{12}$th of the produce, which is not excessive.

19. Mr. Quin says little of the administration of the new Act, but there can be no doubt of its being a most valuable addition to the statute book. The record of rights will come shortly. In the Kaira Collectorate, the District Magistrate is already settling the Village Police of the troublesome villages on the Mhye, and when those of the Limbdi villages in Dhandhuka have been finished, the rest of Ahmedabad will be taken in hand.

20. The Tálukdári Settlement Officer has allowed estates to be burdened with debts extending beyond the life-time of the existing Tálukdárs in ten cases for an aggregate sum of Rs. 38,500 out of Rs. 2,56,500 which the Tálukdárs desired to borrow. No doubt the Tálukdári Settlement Officer has disposed of these cases with much discretion, but he should steadfastly set his face against borrowings of the kind and only grant them in cases of real necessity.

21. The Commissioner endorses the praise given to the Head Clerk, Mr. Hathising, whose name Mr. Quin mentions with that of the Shirastedár Mr. Shivshankar. Mr. Hathising is an old and valuable servant. It is to be regretted that the Tálukdári Settlement Officer's own time has been broken in upon on various occasions, but the Commissioner acknowledges the vigour with which Mr. Younghusband has commenced his duties and he feels sure that next year the report will be a record of even more solid work done and progress effected.

H. E. M. JAMES,
Commissioner, N. D.

Annual Reports: Administration Report of the Tálukdári Settlement Officer for the year 1889-90.

No. 8995.

REVENUE DEPARTMENT.

Bombay Castle, 16th December 1890.

Memorandum from the Commissioner, N. D., No. 3028, dated 14th August 1890—Forwarding with his remarks a letter No. 515, dated 1st idem, from the Tálukdári Settlement Officer, who submits his Annual Report for 1889-90.

RESOLUTION.—The following statement shows the number of estates managed by the Tálukdári Settlement Officer under the Encumbered Estates' Acts and the progress of their settlement during the year 1889-90:—

District.	No. of estates under management.	DEBT AT THE BEGINNING OF THE YEAR.			Advances from Government Treasury during the year and interest accrued up to 31st July 1890.	PAYMENTS DURING THE YEAR.			DEBT AT THE END OF THE YEAR.			Reduction of Debt.	Percentage reduction of Debt.
		To Creditors.	To Government.	Total.		To Creditors.	To Government.	Total.	To Creditors	To Government.	Total.		
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Ahmedabad ...	38	61,086	1,06,375	1,67,461	10,195	13,966	16,783	30,749	47,120	99,787	1,46,907	20,554	12·3
Kaira	49	7,691	2,36,187	2,43,878	11,392	23	33,378	33,401	7,668	2,14,201	2,21,869	22,009	9
Broach ...	7	40,198	64,656	1,04,854	3,082	3,011	16,400	19,411	37,187	51,338	88,525	16,329	15·6
Total ...	94	1,08,975	4,07,218	5,16,193	24,669	17,000	66,561	83,561	91,975	3,65,326	4,57,301	58,892	

The total number of estates under management remained the same (94) as it was in 1888-89, an increase of one in Ahmedabad having been counterbalanced by a decrease of one in Kaira. The total reduction of debt was much greater than that (Rs. 36,570) during the previous year, and the percentages of reduction in all the three districts compare favourably with those of 1888-89 which were $4\frac{3}{4}$, $6\frac{1}{4}$ and $10\frac{1}{2}$ for Ahmedabad, Kaira and Broach, respectively.

2. Five estates were added during the year in Ahmedabad to the number (18) which stood indebted to Government at the close of 1888-89, thus raising the number of such estates in that district to 23. This number includes 8 estates which have been released from the operation of the Act owing to the expiry of the period of 20 years laid down in it but are retained under management for the liquidation of the debts still due to Government. An advance of Rs. 4,900 from the Government Treasury was made during the year to the 5 estates in Ahmedabad referred to above. The estates in Kaira and Broach did not receive any fresh advance during the year.

3. The number of minors' estates managed by the Tálukdári Settlement Officer rose from 30 in 1888-89 to 31 in 1889-90. Three of these estates are situated in Broach and the rest belong to Ahmedabad. It is satisfactory to notice that the subject of education of the minors continues to receive due attention from the Tálukdári Settlement Officer.

4. The Tálukdári Settlement Officer had also in his charge during the year under report 222 miscellaneous estates which were managed under decrees of the Civil Courts or under other arrangements.

5. The total amount of revenue for collection during the year from the estates under the management of the Tálukdári Settlement Officer was Rs. 6,04,287 of which Rs. 5,31,590, or nearly 88 per cent., were collected. The total charges, including the Government dues (Rs. 1,45,327), amounted to Rs. 2,73,000, of which Rs. 16,206, or 3·4 per cent. of the amount collected, represent the cost of the Tálukdári Settlement Officer and his establishment borne by the estates.

6. Besides the estates referred to above the Tálukdári Settlement Officer had in his revenue charge 356 Tálukdári villages in the Ahmedabad District. Notwithstanding the generally unfavourable nature of the season, the whole (Rs. 3,71,507) of the Government jama, inclusive of Local Fund Cess, due from these villages was collected during the year, with the exception of Rs. 2,714. Including Rs. 5,317 on account of the arrears for previous years, the total collections amounted to Rs. 3,74,110. Out of the Local Fund Cess (Rs. 26,604) collected during the year, Rs. 7,614 were spent on useful local works. The survey of the Tálukdári villages, ordered in Government Resolution No. 4580, dated 27th June 1889, with a view to the revision of the jama settlement, is now in progress.

7. The Commissioner, N. D., has submitted a detailed review of the report, noticing all the principal points which require comment. His Excellency the Governor in Council concurs in the remarks and suggestions made by that officer, which should be communicated to the Tálukdári Settlement Officer for information and guidance.

J. De C. ATKINS,
Acting Under Secretary to Government.

To

The Commissioner, N. D.,
